■Purpose

Last year was the year of substitution from Heisei to Reiwa, but in the sports world, the Rugby World Cup Japan tournament has made Japan and the world enthusiastic. And finally, this year, Karate, our long-cherished wish, will be held as an official event at the Tokyo Olympics. Now it has become the "Karate of the World," but the role played by the Seigokan in its diffusion process is not small.

Beginning with the establishment of the Hong Kong Seigokan and Macau Seigokan in 1967, our comrades are working hard to foster youth and contribute to the community on five continents except Africa. When I went to the site, I was glad to hear that karate is helping to prevent crimes caused by poverty, but the leaders did not receive monthly fees or screening fees (cannot receive them), and the countries (regions)).

On the other hand, children in Japan are in a very blessed environment, and many students have several high-quality karate uniforms. Of course, I think that it is handed over to brothers and small juniors, but if there is surplus karategi, I would like to offer it to overseas comrades and make a small international contribution.

In the era of reiwa and globalization, the children of the world through Karate are considered to be a great opportunity to connect with each other. Without losing this opportunity that the Olympics were held in Japan and karate was an official event, the spread of karate and the Seigokan both in Japan and overseas, international contributions to overseas children who are difficult to buy karate clothes, and We designed the "Say Go Project" to help Japanese children feel closer to the world and live a vibrant future in the international community.

We would like to ask for your great cooperation in the project that can only be done by the Seigokan, which was spread by the approach of 20 countries with the attitude of "Honesty, Indomitability and Humility", including the founder of Tada Seigo kanso.
